

## Yeelight Arwen Ceiling Lights 450S/550S

The Arwen S series comes in two sizes and works also with Apple HomeKit. The frame surrounding the lampshade underlines the elegantly rounded edges, which make the lamp body appear ultra-thin. The Arwen S is dimmable, supports Tunable White and impresses with its high brightness, that illuminates rooms up to 15 m<sup>2</sup> (450S) or 25 m<sup>2</sup> (550S) without dazzling. The high-quality LEDs reproduce all colors as in sunlight (CRI = 95) and the clever design of the quick-change ceiling mount guarantees a fast and easy installation. The indirect RGB lighting on the back sets great accents. Control the light via app\*, BLE remote control, BLE light switch and voice.

\*Compatible with Android 4.4 (or higher) & iOS 9.0 (or higher)
