YEELIGHT

Yeelight Wireless Charging Nightlight

With the wireless charge function you can recharge your smartphone easily using the charge pad, while enjoying the warm-white light of the removable, magnetic nightlight. The charge pad supports all well-known smartphone types and turns off automatically if it encounters foreign metallic objects, like keys or scissors. Additionally, it comes with electricity and voltage protection and a small light indicating the status of the charge mode. The charge time lasts about 3 to 4 hours.

FEATURES
Fast Wireless Charging
Detachable Magnetic Nightlight
Foreign Object Recognition
Eye-Friendly
Charging Indicator Lights

COLOR
White

MATERIAL
PC and ABS

CE

Model Number	YLYD08YI
Product Name	Yeelight Wireless Charging Nightlight
Size	225×80×43.5 mm; charging pad 43.8×50.3 mm
Weight	136 g
Luminous Flux (Brightness)	10 lm ± 10 % (warm white) 30 lm ± 10 % (cool white)
Color Temperature (warm white/cool white)	2700 K ± 200 K (warm white) 5000 K ± 500 K (cool white)
Voltage	220–240 V ~ 50/60 Hz
Power Supply	Micro USB Cable DC 5–12 V 2 A
Built-in Battery	Lithium Polymer / 3.7 V / 750 mAh
USB Cable Length	100 cm
Power	max. 15 W
Operating Temperature	0–25 °C
Operating Humidity	0–85 % rF
IP Code	IP20
Class of Protection	III
Standby Power	charging pad < 300 mW; LED lamp < 1mW
Thickness of Smartphone Case	≤ 4 mm (when charging phone on the pad)
Button Lifetime	10000 times
Number of beads	7
Working Hours	> 20 h (warm light); > 8 h (cool light)
Max. Case Temperature	< 75 °C
Electronic Component Temperature Rise	< 80 °C
LED Temperature Rise	< 80 °C
Hardware Undervoltage Protection	yes
Output Short Circuit Protection	yes
